

ES100FS

100WATT FLAT SPEAKER

Model: ES100FS

100WATT HIGH POWER SPEAKER SUITABLE FOR MOST EMERGENCY APPLICATIONS.

- Heavy duty driver
- Designed for continuous high power use
- Water proof

This is a low profile compact speaker designed to fit into small spaces.

The internal magnetic structure is made of high temperature-resisting rare-earth alloy magnet steel.

It is designed for continuous high power use.

This speaker can be used on single speaker siren systems, only if there is a proper impedance matching between the siren output stage and the speaker, this provides maximum speaker performance.

Model	Power	Sound O/P	Dimensions
ES100FS	100Watt	125dB	155x155x75mm
